Learning Opportunity

The University of Florida Literacy Institute (UFLI) will comprehensively review the UFLI Foundations' explicit and systematic phonics program. This will include a brief overview of the program, a review of essential background knowledge needed for implementation, and an overview of the manual and materials needed. Each lesson step will be covered in-depth with an opportunity to practice the newly learned strategies. Finally, there will be a brief overview to progress monitoring and differentiation.

This session will provide participants with the information required to implement the UFLI Foundations in their classrooms effectively.

Participants who complete this training are also eligible to participate in the Facilitator Training program and subsequently deliver this Implementation training program in their school or division.
