Learning Opportunity

Join us for a professional learning day focused on teaching computer science in elementary and middle schools. Each participant will receive a 10-pack of BBC micro:bit V2 boards, complete with battery packs and resources to utilize in your classroom. This hands-on workshop will provide you with the tools and knowledge to inspire your students and integrate computer science into your curriculum effectively. Don't miss this opportunity to enhance your teaching skills and bring innovative technology to your students!
